

Representative	Products and Solutions	Products description	Website
	<b>Flash Memories</b>	1.8V to 5V memories, Mirrorbit and SPI technologies, with a wide variety of densities available.	<a href="http://www.spansion.com">www.spansion.com</a>
	<b>Embedded Processors X86</b>	Fanless processors with performances ranging from 300MHz to 1.4GHz with support to the main OS available. Can be embedded in applications ranging from set top boxes, thin clients to gateways and VoIP.	<a href="http://www.amd.com">www.amd.com</a>
	<b>Integrated Circuits</b>	Integrated circuits applied to automotive, MP3 players, handheld devices, precision instrumentation, RFID reader, rotary encoder.	<a href="http://www.austriamicrosystems.com">www.austriamicrosystems.com</a>
	<b>LCD displays</b>	Development and production of LCD displays and LCD modules	<a href="http://www.jiyalcd.com">www.jiyalcd.com</a>
	<b>Passive Components</b>	Manufactures passive components, such as resistors, capacitors and inductors for a wide variety of applications.	<a href="http://www.koaspeer.com">www.koaspeer.com</a>
	<b>Optoelectronics, LEDs and LED displays</b>	Production of SMD and thru hole LEDs, optocouplers, displays and receivers, applied to products like backlights, mobile phone keyboards, monitors, white line and many more.	<a href="http://www.liteon.com">www.liteon.com</a>
